Mr. Glenn Weaver  
Weaver Trucking Service  
Box 146  
Washington, Illinois 61571

Dear Mr. Weaver:

Your solid waste disposal facility located northwest of Washington was inspected on May 5, 1978, by John Taylor and Les Frankland, representing this Agency.

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations:

... Leachate was observed seeping from the eroded areas on the northeast, north end and the northwest corner of the site. Cover material should be applied to the areas to stop the erosion and to prevent leaching.

You are reminded that according to Rule 318(b), "The owner or operator shall take whatever remedial action necessary to abate any gas, water or settling problems which appear during three years after closure".

We suggest that you correct the aforementioned violations immediately. An acknowledgement of this letter is requested indicating the corrective action which you have taken or plan to take. Your degree of compliance will determine our next course of action.

Sincerely,

Monte M. Nienkerk, Central Region Manager  
Land Field Operations Section  
Division of Land/Noise Pollution Control
